City of Fairfield

Notice of Funding Availability (NOFA)
for
Temporary Emergency Shelter Operations

Proposal Due:

5/24/2024

All inquiries and/or questions shall be submitted in writing
to

acobb@fairfield.ca.gov

Introduction

According to the Solano County 2022 Point in Time count, there are 1,179 unhoused individuals in Solano County. Approximately, three hundred (300) of those individuals are in the City of Fairfield. This Notice of Funding Availability (NOFA) is part of the City of Fairfield's commitment to reduce houselessness, the impacts of houselessness in our community and increase bed/interim housing capacity for those who are unhoused.

With this solicitation, The City of Fairfield seeks to provide funding to support one or multiple temporary emergency shelter operations. An emergency shelter is defined as "housing with minimal supportive services for unhoused persons that is limited to occupancy of six months or less by an unhoused person." Emergency shelters provide services coordinated to meet the immediate safety and survival needs of the individual or family served, including shelter, food, clothing, and other support services. These services are provided in a minimally intrusive environment. At a minimum, emergency shelters provide the following services directly on-site:

- Sleeping accommodations.
- Personal hygiene supplies and facilities, including toilets and wash basins; and
- Showers and/ or bathtubs (temporary shelters may provide referrals to other facilities for these services).

Funding

The City of Fairfield (City) will use funds from the Homeless Services Division general and quality of life funds to support this project. Funding is available through this NOFA in the amount of \$1.1 million with \$550,000 available for the first year and remaining funds available in performance period year two. This is a ***one-time*** funding source with total funds expended by June 30, 2026.

This funding is intended to address and support the operational needs of organizations who are providing temporary emergency shelter and services to those who are unhoused in the City of Fairfield. Successful applicants will provide documentation for continued funding beyond the term of this funding. These funds shall not be used to supplant existing funds.

As a requirement to receive funding, the Executive Director of the organization must sign and agree to implement housing first and low barrier guidelines and agree to case conferencing with the Homeless Services Division to ensure these guidelines are being met.

Appropriate Use of Funds

Operational costs and essential services are those necessary to provide safe and healthy residential services and to connect people experiencing houselessness to permanent housing, income, public benefits, health and mental health services, and other support services to end houselessness. Operational costs and essential services that may be covered by this NOFA.

- Personnel
- Benefits
- Administrative Services
- Client Support supplies/flex funds
- Transportation Assistance for clients
- Land/Building Rent

Program Description and Guidelines

Successful applicants or service providers will serve City of Fairfield residents who are literally unhoused using **housing first** and **low barrier** guidelines, as defined below.

The Department of Housing and Urban Development defines **literally unhoused** as an individual or family who lacks a fixed, regular, or adequate nighttime residence, meaning:

1. Has a primary nighttime residence that is a public or private place not meant for human habitation; or
2. Is living in a publicly or privately operated shelter designated to provide temporary living arrangements (including congregate shelters, transitional housing, and hotels and motels paid for by charitable organizations or by federal, state, or local government programs); or
3. Is exiting an institution where (s)he has resided for 90 days or less and who resided in an emergency shelter or place not meant for human habitation immediately before entering that institution.

Housing First is an unhoused assistance approach that prioritizes providing permanent housing to people experiencing houselessness, thus ending their houselessness and serving as a platform from which they can pursue personal goals and improve their quality of life. This approach is guided by the belief that people need basic necessities like food and a place to live before attending to anything less critical, such as getting a job, budgeting properly, or attending to substance use issues. Additionally, Housing First is based on the understanding that a person's choice is valuable in housing selection and supportive service participation, and exercising that choice is likely to make a person more successful in remaining housed and improving their life.

All successful applicants must incorporate the core components of Housing First into their program(s) that are receiving these funds. Housing First is an evidence-based model that uses housing as a tool, rather than a reward, and that centers on providing or connecting those experiencing houselessness to permanent housing as quickly as possible. Under the Housing First model, services offered are delivered in a low barrier, trauma informed, and culturally responsive manner and available on a voluntary basis, without preconditions that make housing contingent on participation in services. Individuals and families assisted with these funds must not be required to receive treatment or perform any other prerequisite activities as a condition for receiving shelter, housing, or other services for which these funds are used.

Low barrier means the requirements for entry and stay are **limited or minimal**. Low barrier programs and shelters encourage unhoused individuals to seek resources by eliminating obstacles such as sobriety as a requirement for admission. Organizations should have onsite regulations for substance use with an alternative approach to problem solving to keep individuals sheltered.

Harm Reduction and **Trauma-Informed Care** are evidence based alternative approaches for the unhoused. Harm reduction is an approach or strategy aimed at reducing the risks and harmful effects associated with substance use and addictive behaviors for the individual, the community and society as a whole. The trauma-informed care approach recognizes the presence of trauma symptoms and acknowledges the role trauma may play in an individual's life.

The City is seeking organizations with programs that will understand different people need different

solutions, will work with a person where they are and give them choices and options. Successful programs will provide wrap around or linkages to wrap around services and make all services voluntary. Using the low barrier approach, participants cannot be forced to participate in activities such as groups, taking medication or maintaining sobriety in order to remain housed. Programs can and are encouraged by the City to require participants to actively work towards housing solutions by offering safety, choice, collaboration, trustworthiness and empowerment.

Allowing partners, pets and property is another low barrier approach. There are many unhoused individuals who have partners, pets and property that are very important to them. The City is seeking a provider who recognizes partners, pets, and property as important and has an adequate plan and space for all.

Reporting

The Homeless Management Information System (HMIS) is an electronic database that tracks demographic information and performance outcomes at the client level, using standardized fields that allow for automatic system-wide reporting. All participants in successfully funded City project(s) must be entered in the Homeless Management Information System (HMIS) operated by the Continuum of Care in accordance with established policies and procedures. These procedures require providers to ask clients for signed consent to enter their information into the database and to conduct structured interviews at program entry, at program exit, and on the anniversary of each client's entry into the program (if any clients remain in the program for at least 12 months). Funded agencies must sign a HMIS agency participation agreement and at least one staff person at each successfully funded agency will need to complete a free HMIS user training in order to become certified in HMIS privacy and data security techniques and will need to learn how to enter data correctly into the HMIS software.

Provider must grant City of Fairfield's Homeless Services Division "viewer access" to the funded project within HMIS database.

Each user who enters data into HMIS will need to pay an annual license fee for new licenses. This is an eligible expense that may be included (if you wish) in the administrative portion of your application budget.

Items that must be tracked in HMIS include:

- The number of houseless persons served.
- The number of unsheltered houseless persons served.
- The average length of time spent houseless before entry into the program or project.
- The number of houseless persons exiting the program or project to permanent housing.
- The number of people that return to houselessness after exiting the program or project.
- The number of people that increased income while in the program.
- Progress notes that are essential for coordination across the homeless response system including document readiness, housing options offered and/or declined, and engagement efforts in ending houselessness.

- Readmission status upon exit from the program must be documented in the notes in HMIS. Including timeline for eligibility for reentry.

Additional reporting requirements:

- YTD Served (All)
- YTD Served from City of Fairfield
- Average length of Stay (Overall)/Days
- Average length of Stay (Successful Exit)/Days
- Occupancy Rate
- Average number of people per day
- % from Fairfield served per day
- Increased income (all exits)
- Increased income (permanent housing exit)
- Increased income from Fairfield (at exit)
- Increased income (enrolled in site-based employment services)

Exit Destinations (All) and City of Fairfield Exit Destinations:

- Permanent Housing
- Temporary Housing
- Institution Setting
- Homeless Situation
- Unknown
- Positive Housing Outcome
- Other Outcome

Organizations must agree to exclusive referral ability for City of Fairfield supported beds from the City’s Homeless Services Division, County Coordinated Entry Provider and Outreach Provider contracted by the City of Fairfield and agree to bi-monthly case conferencing with the Homeless Services Division Staff.

Monthly reports of program outcomes will be due to the Homeless Services Division by the 10th of each month. Reporting outcomes documentation will be provided upon secured service contract.

Contracting

The contracting process will follow selection of awarded organization(s). Funding recipients must certify their acceptance of standard City of Fairfield contract terms and conditions (Exhibit A) and insurance requirements (Exhibit D). This will include reporting, reimbursement (Exhibit C), and monitoring requirements. Organization must be prepared to enter into contract with the City of Fairfield by June 4, 2024.

Submission of Proposal

The submission of a proposal shall not be deemed an agreement between the applicant and the City. The proposal is an offer by the applicant to perform services in accordance with the NOFA. Specifically, the following provisions apply:

1. The City shall not be obligated to respond to any proposal submitted nor be bound in any manner by the submission of a proposal.
2. Any agreement shall not be binding or valid against the City unless and until it is executed by the City and the selected applicant, and the applicant’s insurance, and/or other surety

guarantee have been accepted by the City.

The proposals received shall become the exclusive property of the City. ***ALL DOCUMENTS SUBMITTED IN RESPONSE TO THE NOFA ARE CONSIDERED PUBLIC RECORDS AND WILL BE MADE AVAILABLE TO THE PUBLIC UPON REQUEST***, unless exempt from disclosure under the Public Records Act or other applicable law. Please do not include confidential information or information that may violate the privacy or intellectual property rights of a third party.

The City reserves the unilateral right to amend this NOFA in writing at any time by both (1) posting the amendment on the City of Fairfield website and (2) sending e-mail notification to any applicants who have already submitted an application. Applicants are responsible for monitoring the website and/or their e-mail periodically in order to make themselves aware of any amendments.

The City reserves the right to reject part or all of one or more Proposals based on failure to meet any requirements stated in this NOFA. If the City does not receive an adequate quantity and/or quality of Proposals by the deadline, then the City, at its sole discretion, may choose to extend the deadline and/or make part or all of the funding available to applicants through a second round of requests for proposals.

The applications will be received by City of Fairfield Homeless Services Division staff and shared with a Rank and Review Panel. The Review Panel may recommend one or multiple Proposers for funding based on the Scoring Criteria. The Review Panel recommendation will be presented to the City for final approval of award of funding. The decision of the City will be final.
