WHEREAS, in accordance with Section 22593 of the Streets and Highways Code, the council abandoned formation proceedings; and

WHEREAS, all landscaping and lighting maintenance services in the North Cordelia community will continue to be funded by assessments levied under the existing LLMD No. 13; and

ASSESSMENT

WHEREAS, on June 4, 1991, the City Council of the City of Fairfield, California (Council), pursuant to the provisions of the Landscaping and Lighting Act of 1972, adopted Resolution No. 91-136, A Continuing Resolution Directing Preparation of Annual Reports for Maintenance Assessment Districts; and

WHEREAS, said resolution directed the undersigned to prepare and file a report pursuant to Section 22565 et seq. of said Act.

NOW, THEREFORE, the undersigned, by virtue of the power vested in me under said Act and the order of the Council, hereby makes the following assessment to cover the portion of the estimated cost of the maintenance of improvements and the costs and expenses incidental thereto for the Landscaping and Lighting Maintenance District No. 13 – North Cordelia (District).

The amount to be paid for the expenses is as shown in section 5 of this report.

Reference is made to the original assessment diagram for the District dated December 1986, which is hereby amended by the assessment roll contained herein.

I do hereby assess the net amount upon all assessable lots or parcels of land within the District by apportioning that amount among the several lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the maintenance of the improvements.

Each lot or parcel of land assessed is described in the assessment list by reference to its parcel number as shown on the assessor's maps of the County of Solano for the fiscal year (FY) 2023-2024 and includes all such parcels excepting those portions thereof within existing public roads or right of way. For a more particular description of said property, reference is hereby made to the deeds and maps on file and of record in the office of the county recorder of said County.

City Engineer/Asst. Director of Public Works

METHOD OF APPORTIONMENT OF ASSESSMENT

The assessments are based on the following landscaping being installed: all of Green Valley Road; Mangels Boulevard median landscaping is installed and street side landscaping extends approximately 1500 linear feet both east and west; 100% of the PG&E easement is installed; and 1800 linear feet of Business Center Drive West landscaping is installed.

For landscaping that is shared by the entire district, the breakdown of charges is as delineated below.

1. The maintenance of Green Valley Road is split 50% to the residential development and 50% to the commercial development.
2. Maintenance of Mangels Boulevard is divided 50% to the commercial districts, 25% to the residential districts, and 25% to the city (in accordance with Resolution 91 213B).

Water charges are divided in the same manner as landscaping charges. Unscheduled expenses are based on 25% of the landscape maintenance cost, once a history has been established, this figure will be based on actual expenses. Printing, accounting, and notices charges are split 50% to the commercial developments and 50% to the residential developments.

Streetlight expenses are as indicated on each individual spread. In residential developments, it is assumed that 50% of the lights are energized; in commercial developments, lights are assumed to be energized all along the roadway, which has been constructed.

As additional landscaping comes on line, assessments will increase appropriately.

The assessment estimates for residential developments are based on the current zoning and estimated dwellings. The assessment is spread equally among the units in each development. Townhouse, condominiums, and duets shall all be assessed at the single-family resident rates. If in the future, an apartment complex should be constructed, each unit in the complex would pay 75% of the per unit assessment for the development.

The assessment estimates for the commercial developments are based on gross acreage. The assessment is spread equally among the development within each zone.
